LASER SURGERY CONSENT FORM

Advances in Veterinary Medicine and Laser Surgery, now make **LASER** use in our surgical procedures available to our clients. We strive to provide the best possible care for your pet and we feel that **LASER** surgery provides the best possible care for your pet. The main reasons for this are:

1. The **LASER** seals **raw, throbbing nerve endings**
significantly reducing post-op pain for your pet.
2. The **LASER** produces little or no blood loss for your pet, because the **LASER** seals the small blood vessels.
3. The **LASER** produces little or no swelling for your pet, because the **LASER** seals the lymphatics.
4. The **LASER** allows precision in removal of abnormal tissue.
5. The **LASER** may allow fewer stitches or eliminate sutures completely.
6. The **LASER** may produce faster recovery.

I understand that LASER Surgery is an option and have been advised of the surgical risks that are involved.

- YES, I want my pet to have **LASER** surgery, which is the best care available.
- NO, I do not want my pet to have **LASER** surgery.
